Calcium Sulphate Panel

EU 800/1000/1250/1500

Bare Finish Panel

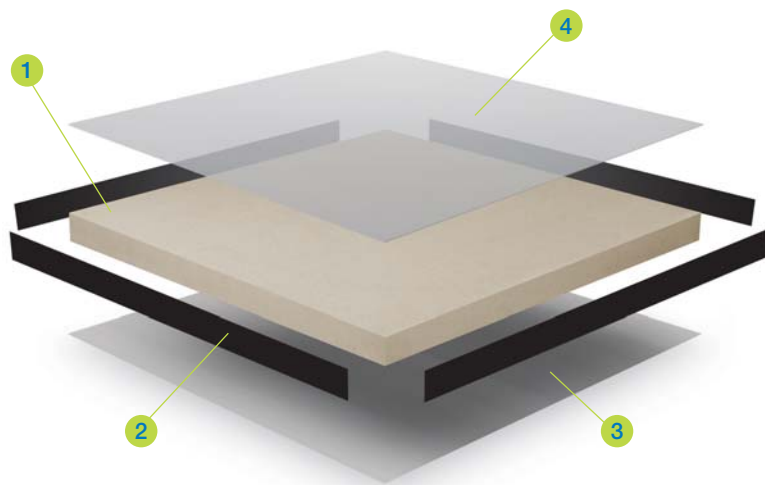

RhinoEU® Bare finish panels are manufactured from a high density of calcium sulphate (approx. 1,650 kg/m³) non-toxic and non-combustible material. The top and base surfaces of the core are laminated with galvanized steel sheet. The panel edges are then laminated with an ABS/PVC edge band which provides protection to the calcium sulphate core.
